

700 Series[®]

Metric Pedestals

A4 and Slim pedestals from KI offer all the design, construction and safety features expected from the 700 Series range. Pressed durable steel frame for strength and rigidity in one seamless, pressed steel piece ensures durability. Multi-bearing drawer runners with secure close action are standard as are finger pulls to match 700 Series laterals. Filing drawers are high sided and can be refigured retrospectively.

KI lock programmes always include a range of important security features as standard: numbered locks, replacement key service, master key, flip/ fixed key options, tamper proof construction and locked open drawer protection system locks with 1,000 key differs.

British designed and manufactured, certified to BS 4875 pt 7&8 Level 4 and with a ten year guarantee. Units feature an anti-tilt system with castors or adjustable glides and are available in any colour. Drawer fronts may be colour co-ordinated, wood drawer and top finishes in birch, maple, oak glass or COM are specifiable with the option of contrasting colour drawer front and textured paint finishes.
