

Take Control!

All Terrain mobile carts and pedestals give back user control.

Units can be adapted to suit each worker's needs. Perfect for hotdesking, a retractable handle means no stooping and easy movement from station to station. Units are easily transported from conference room to training area to workstation throughout the building.

Crisp lines and gentle curves in a wide range of colours make this modern range of pedestals highly adaptable to any scheme.

Back wheels are free to allow easy turning and positioning. Two front swivel castors lock into position acting as fixed castors to allow smooth tracking. Specify with or without a landing pad which serves as an extra surface. Removable pedestal seat cushions are also available.

Want to take the laptop and your filing cabinet into the garden? Power up and Go with Go Power™. Pull-out drawers are available in 76mm (pencil shelf), 152mm (box), 229mm (box), 267mm (file), and 305mm (file) heights. Rails on each side for hanging handy SmartBoxes increase capacity and ease of access to your files.
