

Auditorium Seating

Furnishing Knowledge

Auditorium halls directly reflect an organisation's image and are a key component in attracting and retaining students. With KI fixed seating, you can create inspired spaces that enhance the learning experience and foster student success.

Updated lecture spaces also showcase your commitment to excellence. Our latest product designs offer innovative technology access, functional simplicity, and superior ergonomic comfort to enable you to achieve more.

Put KI's knowledge and experience to work for you. Our specialised planning includes custom solutions, room configurations, as well as recommendations for seating styles, fabrics, finishes, options and more.

University Base

KI's University base is an integral part of any interactive learning or training environment and its flexible design and range of options accommodate a wide variety of individuals.

Floor mounted bases support swingaway arms. Self-returning swivel seats automatically align when vacated for a clean look. Since they are attached, seats are never missing. Large worksurfaces provide more space for writing or computing than tablet arm seating. Underseat clearance and remarkable durability allow easy cleaning and maintenance.

Options include:

- Worksurface or undersurface power and data access.
- Height-adjustable swing arm.
- 360-degree swivel seat.
- A variety of bases.
- Variety of seating, edge and modesty panel styles.
- Custom modesty and end panels.
- Curved, straight, or angled rows.
- Flat or sloped floor mount.

The University range provides 360° seat rotation and flexible movement, ideal for buzz groups and collaborative working.

Sequence Base

When high-capacity seating is required, choose Sequence seating. Durable beam-mounted seats provide ample under-seat clearance for ease of cleaning. Curved or straight beams adapt to different seating configurations. Generous seat spacing enhances personal space and privacy. Choose the G Tablet with built-in armcap or the solid cast aluminium K Tablet for extra durability.

Options include:

- Power and data module.
- Flip and fold tablet arms.
- Variety of seating styles.
- Curved or straight beams.
- Floor or riser mount.
- Flat or sloped floor mount.

Jury Base

Minimise student and trainee fatigue with ergonomically comfortable fixed seating. For critical listening and observation, the 360-degree rotation provides evaluation of all aspects of the environment. Automatic memory return keeps spaces looking clean and controlled.

Options include:

- Seat slide mechanism for increased individual adjustability
- Fixed or adjustable height.
- A variety of bases.
- Variety of seating styles.
- Flat or sloped floor mount.

Seat Styles

The University, Sequence and Jury Base ranges all come with a choice of three seat bases.

Intellect Wave Seating

Intellect Wave's unique one-piece polypropylene flexing back provides exceptional comfort and permits a certain degree of movement that results in better attentiveness and learning retention.

Options include:

- Polypropylene seat and back
- Upholstered seat, polypropylene back
- Upholstered seat and back
- 5 polypropylene colours as standard.

Strive Seating

Strive seating uses polypropylene with slats in the back to permit flexing, while thin steel rods in the back provide rigidity for support. The flexible, curved back provides lateral support and encourages movement and relaxation. The contoured seat dissipates pressure points.

Options include:

- With or without cantilevered arms.
- Polypropylene or upholstered seat base.
- 12 polypropylene colours as standard.

Torsion Seating

Designed by Giancarlo Piretti, Torsion features a unique patented torsion spring mechanism which allows the backrest to articulate and offers a supreme level of comfort.

Options include:

- Polypropylene seat and back.
- Upholstered seat and polypropylene back.
- Upholstered seat and back.

Lancaster Seating

Named after the Lancastrian system of classroom design, Lancaster seating increases learning and retention by providing extremely comfortable seating for students at an affordable price.

Lancaster's design with resilient sheet-webbing support, extra-thick foam seat cushions and contoured backs provides plush comfort. Four seat spacings accommodate many user shapes and sizes.

Lancaster is built to ensure trouble-free longevity. 14-gauge steel uprights for maximum support. Powdercoated frames for long lasting finish. Gravitylift seat returns with no springs to wear out. 10-year warranty for peace of mind.

Options include:

- Black or warm grey frames and trim.
- Flat or sloped floor riser mounts.
- Wood or plastic seat back panels.
- Aisle lights
- Seat and row numbers
- Wheelchair accommodations
- Acoustical seat pans
- Cup holders.
